

Clifton Elementary Reopening Plan

By attending in-person learning, students, families, and staff agree to follow all school safety, health, and hygiene practices.

We are committed to ensuring we follow every guidance given to us in order to keep students, staff, and our entire community safe. Based on CDC, Pediatric Association, and CDE guidance, here are the measures we will be implementing while your student is in school each day:

Symptom Reporting

- In order to ensure students and staff are not coming to school if they have COVID related symptoms or when they have a positive COVID test, our district is asking all staff and students to self-report, in an electronic format, **before** coming to school each day.
- **Parents will need to complete a quick online form each morning before sending your child to school. You can find the “COVID” symptom tracker on Parent view at the bottom of the menu page.**
- More information to come from the district. Please remember: If your child is showing symptoms or not feeling well - fill out the form, call the office and keep your child at home.

Breakfast will be served from 8:35-8:55 in three different locations. Please do not drop-off your child at school earlier than 8:35 AM. There is no supervision for students prior to this time. If your child walks to school, please ensure that they plan their walk so they arrive after 8:35 AM. Students K-5 must wear a mask while entering and exiting the building.

- If a student is not wearing a mask, the school will provide one for them. Non-Bus-Riders (parent drop-off, walkers) • All students K-5 must wear a mask when entering and exiting the building.
- Only students and staff will proceed through the security doors.
- Students who eat breakfast at home, should not be dropped off until 8:50. Classrooms
- Students will be with their grade level cohort through the day.
- Please send your child to school with a mask daily.
- Masks will be worn in hallways, small groups, partner work, and when 3 feet cannot be followed.
- If your student has a medical reason, they are not able to wear a face covering/mask during these times of the day, please have your doctor’s note faxed to Tanya Marvin at 970-245-0825. Please complete this process, before the first day of school.
- 3 feet social distancing when possible.

- Students will practice hand washing often and use provided hand sanitizer. Please do not send sanitizer from home.
- Students should bring a reusable water bottle from home with their name on it to use to stay hydrated instead of using the drinking fountains. These can be washed and sanitized at school as necessary.
- Students will use their own supplies and not share with others.
- Teachers may remove masks for brief periods of time when wearing a mask hinders instruction and are 6 feet from students.
- Students will be assigned a Chromebook, labeled with their name.
- Children may bring snacks of their choice for personal consumption. No outside snacks to share with classmates.

Special Areas: Library, Gym, Music, Computers

- Specials classes will be held outside as much as possible.
- Masks will be required when singing unless outside.
- When traveling inside to and from specials, masks are required.
- 3 feet distancing when possible.
- Wash hands before and after use of PE equipment, computers, library books and instruments.
- Shared technology in the Computer Lab will be sanitized between classes.

Thank you for your cooperation.

We look forward to serving you and your students this year!
